Dated Dec 8, 2025

PO#2539--North Shore Preserve Ventures

## PLAN VIEW

Cross-Section

Looking down on the hinge edge of the gate

### Notes:

The previous Hawaii projects for these gates utilized the BadAss hinges because the C13800 is aluminum and welds to the aluminum gate hinge plate and the C13400 is stainless and welds to the stainless post hinge plate or to the steel post.

\* The BadAss hinges are supplied by site
